SCHOOL PROJECTS

Project Manager
01/2024 - 03/2024

RetroComp Ecosystem

- Overseeing three products: two **Platform-agnostic games**, a **Website**, and a **Telegram Bot**

- Developing Project Charter, Stakeholder Register, Scope Statement, Network Diagram (Gantt Chart), and Work Breakdown Structure for the **Planning phase** in waterfall phase

- Integrating Agile to the **Development phase**, developing burndown charts for both sprints, assessing the team's velocity at every retrospective meeting

- Publishing a **closed beta testing** to a selected group of classmates in the **Testing phase** for the ecosystem and gathering feedback for the launching phase

- RetroComp's Content
  - *Project Charter*
  - *Sprint Backlog #1*
  - *Network Diagram*

Project Manager
03/2023 - 06/2023

Shellify

- Developed **deliverables for all phases** (using PMBOK's Project Life Cycle) such as Project Charter for Initiation, Gantt Chart of overall Schedule for Planning, Work Breakdown Structure & Agile's Stand-Up Log Monitoring for Execution, adopting a mixture of the standard Waterfall and Agile Methodologies

- Integrated **Budget Control** for Production due to the product's nature being non-commercial (built for the students)

Technical Product Manager
01/2023 - 03/2023

Automata Telegram Bot

- Developed the **Technical Report** for the overall project, as well as planning and designing tasks for the developers, leveraging the use of Scrum's Kanban board
